- Deployment Assignment
  - Team work – Section A ~ C, H & I – week 15 03/06/2019
  - Individual work – Section E,F, G – week 15 03/06/2019

Assessment Strategy

In each assessment you will have the opportunity to re-sit or resubmit once if it is not successfully completed on the first attempt. If there are merit sections the opportunity to gain merit towards a Credit or Distinction is only available on the first attempt of an assessment. That is, merit cannot be gained on a resit or resubmission. All assessments must be successfully completed before being considered as competent in this subject. Ensure that you have read the Plagiarism and cheating policy on the TAFESA website.

Assessment tasks submitted after the due date without an agreed extension will be considered as a resubmission and will not attract any available merit.

This subject is graded as Distinction, Credit, Pass or Fail. There will be merit components within the assessment instruments which will allow you to obtain merit points.

It will be possible to gain a maximum of six merit points.

- You will receive a grade of D (Distinction) for a merit point score of 5 ~ 6.
- You will receive a grade of C (Credit) for a merit point score of 3 ~ 4.
- You will receive a grade of P (Pass) with no merit point.

Merit points can be gained as follows:

- Test 1 has 1 merit component
- Test 2 has 1 merit component
- Start Finance Assignment has 2 merit components
- Deployment Assignment has 2 merit components

The merit components will be clearly identified in each assessment and will cover the competencies listed earlier but will also allow you to demonstrate:

- A high degree of precision will still meeting deadlines
- Originality and independence of thought
- Ability to apply knowledge and skills in a variety of contexts
